GRADUATE ATTRIBUTES FOR B.Sc NURSING:

Sri Venkateswara College of Nursing identifies the attributes of admitted students from different backgrounds in various programs. Initially, some attributes of the student learning outcomes can be observed as academic category, cultural, social, and health, economical attributes. During the tenure of the program remaining attributes can identify.

Academic Attribute: Slow learners can be identified by the strategic mechanism of the institution and advanced learners are also identified in the academic performance of students. The tutorial classes / Remedial classes, proving handoffs, study material, and counseling to improve their academic performance. Advance learners encourage to participate in seminars/workshops hackathons and competitive exams.

Linguistic Attributes: Some of the students from a village background, who came from Telugu medium usually face a bit of difficulty in understanding the subjects in English. Such students are given special attention to developing their English language skills both in spoken and written aspects.

Personal and Performance attributes: The training and Placement Cell trains students in personality development and technical skills from the first year by adding special hours to the regular academic plan in the entire four-year syllabus.

Sri Venkateswara College of Nursing believes in developing the students in all dimensions and finds the case of managing and classifying them through their attributes in each dimension.
