There is an urgent need to bridge the gap between theory and practice in nursing education in India. An increasing number of diseases, epidemics around the world and the advancements in medical technology are only increasing the existing pressure on the healthcare sector and its professionals. Emerging technologies like Artificial Intelligence (AI), telemedicine, electronic health records, robotics in the medical field, etc. are going to change the way nursing is practiced. And nurses across the country must undergo skilling, upskilling and reskilling to keep up with the pace of advancements.

Topics Covered:

- Addressing the gaps in the nursing curriculum
- Clinical skills of patient care
- Quality and patient safety standards
- Digital skills in healthcare
- Clinical Communication
