### Objective of the Programme:-

Creative thinking is a skill which lets you consider things from a fresh perspective and different angles. It's an inventive thought process which results in surprising conclusions and new ways of doing things. Creative thinking can be aided by brainstorming or lateral thinking to generate ideas. Thinking creatively makes you a better problem-solver, which has far-reaching benefits in both your work and personal life. Expressive, creative thinking helps us challenge our own assumptions, discover new things about ourselves and our perspective, stay mentally sharp, and even be more optimistic.
