Objective of the Programme:-

Avoid talking about the virus with people who tend to be negative or who reinforce and ramp up your fears. Turn to the people in your life who are thoughtful, level-headed, and good listeners. If you don't have someone you trust to turn to, apps such as 7 Cups are a good resource for free, emotional support. In extreme cases, people may suffer from depression characterized by low mood, tiredness, pessimism, poor sleep, and appetite, feeling helpless, guilty, and hopeless, with a gradual reduction in work output. Older people are more vulnerable, and special care must be taken for them

Route Map:-

College:-

Topics covered:-

- Low mood
- Tiredness
- Pessimism
- Poor sleep
- Appetite
- Feeling helpless
- Guilty
- Hopeless, with a gradual reduction in work output

Outcome of the Programme:-

You feel yourself getting caught up in fear of what might happen, try to shift your focus to things you can control. For example, you can't control how severe the coronavirus outbreak is in your city or town, but you can take steps to reduce your own personal risk. Take up a relaxation practice. When stressors throw your nervous system out of balance, relaxation techniques such as deep breathing, meditation, and yoga can bring you back into a state of equilibrium. Regular practice delivers the greatest benefits, so see if you can set aside even a little time every day.
