### **College:-**

### **Topics covered:-**

- Assimilate different existing methodologies
- Approaches

### **Outcome of the Programme:-**

This approach is broad and may include every kind of learning activity and saves learner from monotony. It is more appropriate for Pre School learning but not less beneficial in the class rooms. It is helpful in all kinds of skills in stimulating a creative environment and gives confidence to the learners. The features of eclectic counselling that is, flexibility in choosing directive or non-directive or both the techniques, and alternating between the two techniques, the freedom of choice and expression to the counsellor and the client - are itself its major advantages.
