2. Principal
3. Circulation to all Staff members

**Objective of the Programme:-**

In some people with COVID-19, symptoms persist for weeks or even months after recovering from the acute illness. This is referred to as 'post-COVID-19 condition', sometimes described as 'long COVID'. Most people who recover from COVID-19 find their sense of smell returns in a few weeks. But for others up to 7%, according to one estimate the loss can persist for months or even years. The time taken by the symptoms to first appear on an infected individual. The incubation time for COVID-19 ranges from 1-14 days, most commonly being around 5 days. Vaccination is one of the most effective ways to protect our families, communities and ourselves against COVID-19.

### About the Institute:-

Sri Venkateswara College of Nursing was started in the year 1982 with the ambience of providing Nursing education to the poor and under privileged. The Motto of the College is to provide excellent education and expertise skills in Nursing Practice. The College has been sanctioned by the AP State Government, approved by AP Nursing Council and Recognized by Indian Nursing Council, New Delhi. It is affiliated by Dr. NTR University of Health Sciences, Vijayawada. This institute is promoted by Srinivasa Educational Academy under the watchful eyes of Dr. Ravuri Venkataswamy, the Group has group of selfless, dedicated and hardworking people whose endeavor in providing and establishing good professional education to the students has been a relentless effort on their part. The Institute has got adequate buildings and other infrastructure facilities located very near to the temple city.

The ANM & GNM Courses was started in the year 1982 and 1983 respectively where as the B.Sc Nursing was started in the year 2002 in Chittoor, Tirupati and Hyderabad. Till Now ANM – 1080 Students, GNM – 1960 Students and B.Sc. – 812 Students has passed out from the Institute. The Nursing students studied in the institution are employed all around India and also in abroad. The students studied in these Nursing institutions are working in institution like CMC-Vellore, Apollo Hospital-Chennai and in so many prestigious hospi-

We are competing with other world class institutions by providing excellent upto date knowledge to the students by highly qualified faculty. Good clinical experience with well equipped laboratories and in District head quarters Hospital.

The college is permitted by INC, New Delhi, AP Nursing Council, Hyderabad and affiliated to Dr. NTR University of Health Sciences, Vijayawada. The College has experienced faculty for paving way for best academic and clinical performance of the students.

We have our parent hospital by name RVS Hospitals & Research Foundation. It is Multi Specialty Hospital which consists of 450 beds with well equipped departments.

### Route Map:-

### College:-

### Topics covered:-

- Whole Virus
- Protein Subunit
- Viral Vector
- Nucleic Acid (Rna And Dna)

### Outcome of the Programme:-

The Covid 19 viral strain directly impacts the lungs, reducing its capacity and limiting the intake of oxygen and leading to ARDS and pneumonia. It is especially deadly in individuals who have underlying illnesses, and respiratory complications. Covid-19 vaccines have been tested by multiple drug administration authorities in the world. They are proven to be effective in reducing your probability of contracting COVID-19. Once you are vaccinated, your body is much better prepared to shield off more viruses by making your immune system stronger.

### PROGRAMME REPORT

Name of the programme : A One Week Faculty Development Programme on  
**"COVID-19 Vaccination and post  
Vaccination care"**

Dates : 17-06-2019 to 22-06-2019

Details of Resource Person:

Name : Mrs. G. Neelima  
Designation : Assoc. Professor  
Organization : Sri Venkateswara College of Pharmacy  
Ph. No : 9642452369  
Mail. Id : [neelima@svcop.in](mailto:neelima@svcop.in)

Objective of the Programme:

In some people with COVID-19, symptoms persist for weeks or even months after recovering from the acute illness. This is referred to as 'post-COVID-19 condition', sometimes described as 'long COVID'. Most people who recover from COVID-19 find their sense of smell returns in a few weeks. But for others up to 7%, according to one estimate the loss can persist for months or even years. The time taken by the symptoms to first appear on an infected individual. The incubation time for COVID-19 ranges from 1-14 days, most commonly being around 5 days. Vaccination is one of the most effective ways to protect our families, communities and ourselves against COVID-19.

Topics covered:

There are four types of vaccines in clinical trials:

- Whole Virus
- Protein Subunit
- Viral Vector
- Nucleic Acid (Rna And Dna)

Outcome of the Programme:

The Covid 19 viral strain directly impacts the lungs, reducing its capacity and limiting the intake of oxygen and leading to ARDS and pneumonia. It is especially deadly in individuals who have underlying illnesses, and respiratory complications. Covid-19 vaccines have been tested by multiple drug administration authorities in the world. They are proven to be effective in reducing your probability of contracting COVID-19. Once you are vaccinated, your body is much better prepared to shield off more viruses by making your immune system stronger.
