2. Principal
3. Circulation to all Staff members

### Objective of the Programme:-

An infection control nurse is a registered nurse (RN) who implements best practices for halting the spread of viruses and bacteria and delivers top care to patients who have contracted infectious diseases. Safety and Infection Control, a key subpart of Safe and Effective Care Environment, addresses the nurse's ability to manage care with the best practices of reducing hazards while providing both emergent and non-emergent responses to numerous situations. There are many things you can do to help protect yourself and others: Wash your hands with soap and water throughout the day. Get recommended vaccinations to prevent infectious diseases such as measles and chicken-pox. Practice safer sex to protect against sexually transmitted infections.
