CIRCULAR

All the faculty members are informed that our college is organizing one week Faculty Development Programme on **“COVID-19 Vaccination And post vaccination care”** from 17-06-2019 to 22-06-2019 by distinguished resource speakers. Request all the Teaching and Non-Teaching staff members must attend the Programme without fail.

Edna Sweeney
IQAC

V. Sujatha
PRINCIPAL

Copy to:

1. Chairman for Favour of information
2. Principal
3. Circulation to all Staff members

Objective of the Programme:-

In some people with COVID-19, symptoms persist for weeks or even months after recovering from the acute illness. This is referred to as 'post-COVID-19 condition', sometimes described as 'long COVID'. Most people who recover from COVID-19 find their sense of smell returns in a few weeks. But for others up to 7%, according to one estimate the loss can persist for months or even years. The time taken by the symptoms to first appear on an infected individual. The incubation time for COVID-19 ranges from 1-14 days, most commonly being around 5 days. Vaccination is one of the most effective ways to protect our families, communities and ourselves against COVID-19.

ONE WEEK FDP PROGRAMME ON

COVID-19 VACCINATION AND POST VACCINATION CARE

Dates:

17-06-2019 to 22-06-2019

Venue:

College Seminar Hall,
Sri Venkateswara college of Nursing
RVS Nagar, Tirupati Road,
Chittoor 517127.
Andhra Pradesh
INDIA

About the Institute:-

Sri Venkateswara College of Nursing was started in the year 1982 with the ambience of providing Nursing education to the poor and under privileged. The Motto of the College is to provide excellent education and expertise skills in Nursing Practice. The College has been sanctioned by the AP State Government, approved by AP Nursing Council and Recognized by Indian Nursing Council, New Delhi. It is affiliated by Dr. NTR University of Health Sciences, Vijayawada. This institute is promoted by Srinivasa Educational Academy under the watchful eyes of Dr. Ravuri Venkataswamy, the Group has group of selfless, dedicated and hardworking people whose endeavor in providing and establishing good professional education to the students has been a relentless effort on their part. The Institute has got adequate buildings and other infrastructure facilities located very near to the temple city.

The ANM & GNM Courses were started in the year 1982 and 1983 respectively where as the B.Sc Nursing was started in the year 2002 in Chittoor, Tirupati and Hyderabad. Till Now ANM – 1080 Students, GNM – 1960 Students and B.Sc. – 812 Students has passed out from the Institute. The Nursing students studied in the institution are employed all around India and also in abroad. The students studied in these Nursing institutions are working in institutions like CMC-Vellore, Apollo Hospital-Chennai and in so many prestigious hospi-

We are competing with other world class institutions by providing excellent upto date knowledge to the students by highly qualified faculty. Good clinical experience with well equipped laboratories and in District head quarters Hospital.

The college is permitted by INC, New Delhi, AP Nursing Council, Hyderabad and affiliated to Dr. NTR University of Health Sciences, Vijayawada. The College has experienced faculty for paving way for best academic and clinical performance of the students.

We have our parent hospital by name RVS Hospitals & Research Foundation. It is Multi Specialty Hospital which consists of 450 beds with well equipped departments.

Route Map:-

College:-

Topics covered:-

- Whole Virus
- Protein Subunit
- Viral Vector
- Nucleic Acid (Rna And Dna)

Outcome of the Programme:-

The Covid 19 viral strain directly impacts the lungs, reducing its capacity and limiting the intake of oxygen and leading to ARDS and pneumonia. It is especially deadly in individuals who have underlying illnesses, and respiratory complications. Covid-19 vaccines have been tested by multiple drug administration authorities in the world. They are proven to be effective in reducing your probability of contracting COVID-19. Once you are vaccinated, your body is much better prepared to shield off more viruses by making your immune system stronger.

Objective of the Programme:-

solid waste management mainly refers to the complete process of collecting, treating and disposing of solid wastes. In the waste management process, the wastes are collected from different sources and are disposed of. This process includes collection, transportation, treatment, analysis and disposal of waste. Solid waste management is extremely important in our community mainly because it will prevent our household from experiencing the hazardous outcomes of solid waste material. By getting rid of most of these waste matter properly, we can actually protect our loved ones along with the environment.

Route Map:-

College:-

Topics covered:-

- Municipal Solid Waste (MSW)
- Hazardous Wastes
- Industrial Wastes
- Agricultural Wastes
- Bio-Medical Wastes
- Waste Minimization

Outcome of the Programme:-

Solid waste saves landfill capacity for materials that do not have alternative uses and reduces the number of raw materials used in construction and other industries. Waste management is important as it saves the environment from the toxic effects of inorganic and biodegradable elements present in waste. Mismanagement of waste can cause water contamination, soil erosion and air contamination. Waste can be recycled if collected and managed efficiently. Solid waste management mainly refers to the complete process of collecting, treating and disposing of solid wastes. In the waste management process, the wastes are collected from different sources and are disposed of. This process includes collection, transportation, treatment, analysis and disposal of waste.

1. Chairman for Favour of information
2. Principal
3. Circulation to all Staff members

Objective of the Programme:-

Material management is concerned with providing the drugs, supplies and equipment needed by health personnel to deliver health services. The right drugs, supplies and equipment must be at the right place, at the right time and in the right quantity in order that health personnel deliver health services. Material management is the process of planning, organising, directing and controlling the flow of materials within an organisation. In the manufacturing field, material managers perform a vital role in purchasing, obtaining and maintaining raw materials to use in production processes.

We are competing with other world class institutions by providing excellent upto date knowledge to the students by highly qualified faculty. Good clinical experience with well equipped laboratories and in District head quarters Hospital.

The college is permitted by INC, New Delhi, AP Nursing Council, Hyderabad and affiliated to Dr. NTR University of Health Sciences, Vijayawada. The College has experienced faculty for paving way for best academic and clinical performance of the students.

We have our parent hospital by name RVS Hospitals & Research Foundation. It is Multi Specialty Hospital which consists of 450 beds with well equipped departments.

Route Map:-

College:-

Topics covered:-

- Material Requirements Planning.
- Purchasing.
- Inventory Control.
- Material Supply Management.
- Quality Control.

Outcome of the Programme:-

Particularly in a Hospital, Materials Management Department plays a significant role in the unhindered and proficient function of it. It means the supervision of materials like Planning, Purchasing, Store & Inventory Control, Care and Preservation, Issue of materials, Accounting and Disposal of scrap. The goal of materials management is to provide an unbroken chain of components for production to manufacture goods on time for customers. The materials department is charged with releasing materials to a supply base, ensuring that the materials are delivered on time to the company using the correct carrier.

PROGRAMME REPORT

Name of the programme : A One Week Faculty Development Programme on
“Hospital Material Management”

Dates : 19-08-2019 to 24-08-2019

Details of Resource Person:

Name : Rufina.S.Johnson
Designation : Assoc. Professor
Organization : PESCON, Kuppam
Ph. No : 7093379157
Mail. Id : rufijohn123@gmail.com

Objective of the Programme:

Material management is concerned with providing the drugs, supplies and equipment needed by health personnel to deliver health services. The right drugs, supplies and equipment must be at the right place, at the right time and in the right quantity in order that health personnel deliver health services. Material management is the process of planning, organising, directing and controlling the flow of materials within an organisation. In the manufacturing field, material managers perform a vital role in purchasing, obtaining and maintaining raw materials to use in production processes.

Topics covered:

- Material Requirements Planning.
- Purchasing.
- Inventory Control.
- Material Supply Management.
- Quality Control.

Outcome of the Programme:

Particularly in a Hospital, Materials Management Department plays a significant role in the unhindered and proficient function of it. It means the supervision of materials likes Planning, Purchasing, Store & Inventory Control, Care and Preservation, Issue of materials, Accounting and Disposal of scrap. The goal of materials management is to provide an unbroken chain of components for production to manufacture goods on time for customers. The materials department is charged with releasing materials to a supply base, ensuring that the materials are delivered on time to the company using the correct carrier.

Copy to:

1. Chairman for Favour of information
2. Principal
3. Circulation to all Staff members

Objective of the Programme:-

Preventive measures include physical or social distancing, quarantining, ventilation of indoor spaces, covering coughs and sneezes, hand washing, and keeping unwashed hands away from the face. The use of face masks or coverings has been recommended in public settings to minimise the risk of transmissions. The responsibilities of these nurses differ in each career path, but all community health nurses promote healthy living, disease prevention, and necessary medical treatment. Additionally, community health nurses create programs that promote community health and collect data to identify community needs.
