The overall goal of the first-aid training program is to ensure that during emergencies (wars, conflict and/or other situations of violence), wounded and acutely sick people benefit from humane, impartial, effective and secure provision of first aid. This care should be provided by confident, skilled and properly supported emergency-care responders abiding by humanitarian values and principles.

Presenting information clearly and effectively is a key skill in getting message across. Today, presentation skills are required in almost every field, and most of people are required to give presentations on occasions.

MS Power Point is a program that is included in the Microsoft Office suite. It is used to make presentations for personal and professional purposes.

The AHA's ACLS course builds on the foundation of lifesaving BLS skills, emphasizing the importance of continuous, high-quality CPR. Reflects science and education from the American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC).

The AHA's BLS course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an AED. Reflects science and education from the American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC).

Topics Covered:
- Review BLS + AED usage.
- Recognition, management of ACS and stroke.
- Recognition and management of brady and tachyarrhythmias.
- Recognition and management of cardiac arrest, respiratory arrest, and immediate post–cardiac arrest care.
- Impact of team dynamics and Feedback to team
- Role of a rapid response team or medical emergency team.

Training of medical professionals in India has over time become mostly concerned with the acquisition of knowledge at the cost of attitudes and skills. Complete healing (physical, mental and social recovery) requires not only technical expertise but also care and compassion.

Topics Covered:

- Provide patient-centered care
- Work in interdisciplinary teams
- Employ evidence-based practice
- Apply quality improvement
- Utilize informatics

The ACLS provider course is designed for healthcare providers who either direct or participate in the management of Peri-arrest, cardiopulmonary arrest or other cardiovascular emergencies. Through didactic instruction and active participation in simulated cases, students will enhance their skills in the diagnosis and treatment of cardiopulmonary arrest, acute arrhythmias, and coronary syndromes (ACS).

Tipics Covered:

- ➤ The Basic Life Support (BLS) Sequences
- ➤ The ACLS Survey
- ➤ The ACLS Algorithms
- ➤ Effective resuscitation team dynamics
- ➤ Immediate post-cardiac arrest care.
- ➤ Basic ACLS drug and pharmacology knowledge
- ➤ Effective resuscitation team concepts

Taking a high-quality ECG is an important part of nursing and diagnostics. In order for an ECG to be high quality, the student needs training and instruction. Mistakes often occur at the theoretical level, which can be corrected with quality teaching.

Topics Covered:

- ECG registration
- Device preparation
- Patient education
- Location of electrodes
- Interpreting ECG
- Sinus Rhythm
- Segments of the isoelectric line in sinus rhythm
- ECG Artefacts

Name of the Programme: International Women's day celebrations

Date: 8.03.2018

Timings: 10.00 AM to 4.00 PM

Resource Person: Mrs.M. Pragna Sree

Contact Details: 8639695886

No.of Participants: 27

Preparation of Women's Day Programme had started immediately after identifying the need for Women's motivation towards their duties. International Women's Day is celebrated in the world over, every year on the eight day of March. It celebrates womanhood and pays tribute to the indomitable spirit of women across the globe. Its root lies in the early 1900s when oppression and inequality was spurring women to become more vocal and active in campaigning for change. An essay writing competition on Women's day was been conducted in morning and many of the students had participated for that. After the completion of essay writing competition, a short program was conducted in the seminar hall of our college. At the beginning of program our resource person Mrs.M. Pragna Sree gave a short speech on Women's day. Then some fun events were designed to make the boys realize the women's daily household work and of course to have fun for all. The events included-Sari draping, Hair styling, button stitching. It was a lot of fun. At the end, prize distribution for the winners of essay writing competition was done.

Over the past five years, meeting the challenges of life skills on day to day life through constantly changing environment, has affected worldwide economics. When matched with the transformation in technology education, the workplace and home life are affected. Students aspire to gain new skills to deal stress and frustration. With associated burdens or pressure they need flexibility to meet and survive with the change in modern life. Human values need to be inculcated into their very being.

Students get benefitted by the development of life skills and values in the following ways and find new ways of thinking and problem solving

- Avoid blaming others by taking responsibilities
- Attain skill to develop self-confidence
- Build self-awareness
- Build the skill to appreciate others
- Evaluate and make decisions

The Internet has grown rapidly over the years. It has been the fastest growing communication technology and be the major source that connects people, and data. The usage of Internet for teaching and learning purposes has received increasing attention over the world. Nowadays, the lecturers use e-learning to give assignments or important notes to the students (Sharpe & Greg, 2005). The quality of education can be improved with Internet usage.

Topics Covered:

- Role of Internet in Internet Addiction
- The Internet's Effects on Students Lives
- Impacts of Internet on Print Media and Journalism
- The Internet of Things: Perspectives and Challenges
- Internet and Interactive Media as an Advertising Tool
- Necessity of Internet Censorship

Insights generally alludes to the mathematical information which is gathered through estimations or perceptions of a particular peculiarity, association, or populace test. Insights has an assortment of utility, going from giving spellbinding qualities to estimating execution results. Mathematical information presented by measurements is regularly used in medical services for its objectivity and capacity to present information driven programs which can expand productivity and check the strength of huge populaces. Measurements act as a fundamental device in the medical services area, relevant for different purposes and in numerous specializations, for example, nurture expert which can apply the discipline in examination and practice.

Topics Covered:
- Definition
- Importance
- Types of statistics
- Frequency distributions
- Presentation of data strength
- Shapes of frequency distributions

Technological progress is changing the landscape of almost every industry, including health care. One of the biggest impacts comes from big data: a concept defined by massive amounts of information produced by an expanding field of resources. When properly harnessed, this information can yield a wealth of insights that can be used to streamline business operations, improve medical research and increase the quality and efficiency of care.

Topics Covered:

- How to Use Big Data in Health Care
- Big Data Examples in Health Care
- EHRs
- The Future of Big Data in Health Care

The main objective of the programme was to create awareness among the people about the importance of girl child. The bigger objective was to discourage them against the female foeticide, a cancer for the society. There was a huge enthusiasm among the teachers and the students for the programmes.

Topics covered:

- What is Beti bachao Beti padhao scheme

- Objectives of Beti bachao Beti padhao scheme

    o To prevent gender-biased sex selective elimination.
    o To ensure the protection and survival of the girl child.
    o Ensuring education and participation of the girl child.

- Performance of the scheme

REPORT

Name of the Programme: Integrated Skill development to enhance employability

Date: 6.06.2020

Timings: 10.00 AM to 5.00 PM

Resource Person: Mr Rufina.S.Johnson

Contact Details: rufijohn123@gmail.com

No.of Participants: 70

There is an urgent need to bridge the gap between theory and practice in nursing education in India. An increasing number of diseases, epidemics around the world and the advancements in medical technology are only increasing the existing pressure on the healthcare sector and its professionals. Emerging technologies like Artificial Intelligence (AI), telemedicine, electronic health records, robotics in the medical field, etc. are going to change the way nursing is practiced. And nurses across the country must undergo skilling, upskilling and reskilling to keep up with the pace of advancements.

Topics Covered:

- ➢ Addressing the gaps in the nursing curriculum
- ➢ Clinical skills of patient care
- ➢ Quality and patient safety standards
- ➢ Digital skills in healthcare
- ➢ Clinical Communication

S. Sujith
